## SQL queries - ORDER BY, SUM, GROUP BY, AVG, DISTINCT

The following are examples of queries ORDER BY, SUM, GROUP BY, AVG and DISTINCT.

- ORDER BY - allows you to alphabetically or numerically order a column

- SUM - Calculates the sum of a set of values

Tells the program to return the data (price column) in numerical order highest to lowest. For alphabetical this would be ordering $Z$ to $A$.

- AVG - returns the average value

SELECT Avg(DVD.RentalCost) AS AverageCost FROM DVD;

```
SELECT Avg(DVD.RentalCost) AS AverageCost
FROMDVD
```

The average rental cost of DVD's.

- DISTINCT - returns only DISTINCT values and no duplicates

SELECT DISTINCT genre FROM DVD;

Returns the listed genres of the films, with no duplicates.

Create the table representing AVON Sales figures and using all your knowledge so far about SQL queries, answer the following questions.

| ID (PK) | Firstname | Sales | Saledate |

1. Write a query which displays the result below.

| firstname |
| :--- |
| Paris |
| Nicole |
| Lindsay |
| Britney |

2. Can you write a query which calculates the total sales of the representative Nicole? Name the column Nicole Total Sales.
3. Can you write the query which produces the following result?

| firstname - | TotalSales |
| :--- | ---: |
| Britney | $£ 107.91$ |
| Paris | $£ 98.23$ |
| Nicole | $£ 96.03$ |
| Lindsay | $£ 81.08$ |

4. Can you write a query which calculates the average sales of each Avon representative? List the results by the representative's name.
5. Can you write the query which produces the following result?

| Britney | $£ 43.21$ |
| :--- | ---: |
| Lindsay | $£ 32.02$ |
| Nicole | $£ 26.82$ |
| Paris | $£ 31.99$ |

6. Can you write the query which displays the minimum sales achieved by each Avon representative?
7. Can you write a query that displays the number of days each representative sold?
8. Can you write the query that would produce the following result?

$$
\begin{aligned}
& \hline \text { saledate } \\
& \hline 03 / 06 / 2007 \\
& \hline 03 / 07 / 2007 \\
& \hline 03 / 08 / 2007 \\
& \hline 03 / 09 / 2007 \\
& \hline 03 / 10 / 2007 \\
& \hline 03 / 11 / 2007 \\
& \hline 03 / 12 / 2007 \\
